Academic Programs

Studio Art Clinic

June 24 - June 28

9:00 AM – Noon

Entering Grades 6-8

\$100

At St. Paul Summer Art Studio clinic, art teacher Mr. Mazzarella will help young artists build a solid foundation learning a variety of techniques while being introduced to new concepts and inspiration. Our program supports and develops real progress by equipping students with the tools they need to become the artists they want to be. If you are new to painting, this class will serve as a great introduction to each of the different painting mediums: Acrylic, Watercolor, Oil Pastels. All three paint mediums have very different application processes and elements that achieve very different results. Capacity: 15

Falcon STEM Academy

August 12 - 15

9:00 AM- 11:30 AM

Entering Grades 5-8

\$100

St. Paul STEM teachers will introduce students to the fundamentals of mechanical engineering and computer programming. Students will learn the amazing possibilities of simple machines and fundamental mechanical concepts such as levers, gears and linkages, using kinetic sculptures, interactive computer software, and hands-on activities. Then, using a visual programming environment that makes learning the basics of programming enjoyable and fun, students will create their own interactive stories, games, and animations. No experience is required. Capacity: 20
